I completed International Business studies and am awaiting graduation. I write and cut short-form video, prepare the offline materials that go with a campaign, and check every line before it is published: scripting and editing in CapCut and Canva, English-to-Vietnamese translation across eighteen months of bilingual work, and event administration covering print, standees and gifts closed 29% under budget. Interested in developing a career in Marketing and data-driven digital marketing; desire to become a leader or manager in 2-3 years within a fast-paced and ever-changing environment.
